MEMORANDUM TO REGISTERED DENTAL TECHNICIANS AND DENTAL PROSTHETISTS 1/2003

Occupational Health and Safety Guide for Dental Technicians and Dental Prosthetists

Enclosed for your information and future reference is the “Occupational Health and Safety Guide for Dental Technicians and Dental Prosthetists”, published jointly by the Australian Commercial Dental Laboratories Association, the Australian Dental Prosthetists Association and Australian Capital Territory WorkCover [2002 Edition].

The Board has endorsed the document and despatched it to each registered dental technician and dental prosthetist in New South Wales. The Board commends the document as a useful reference.

It should be noted the Dental Technicians Registration Regulation 1998 includes infection control standards for dental prosthetists [Schedule 2 refers] and dental technicians [Schedule 3 refers]. The Occupational Health and Safety Guide is not intended to replace or supersede the requirements of the Regulation, and where any conflict may exist between the guide and the Regulation the Regulation would take precedence. It is the responsibility of each registered dental technician and dental prosthetist to ensure they are aware of the relevant requirements of the Regulation.

Michael Walsh
SECRETARY

January 2003
